

# Are seals impacting Canada's marine ecosystem?

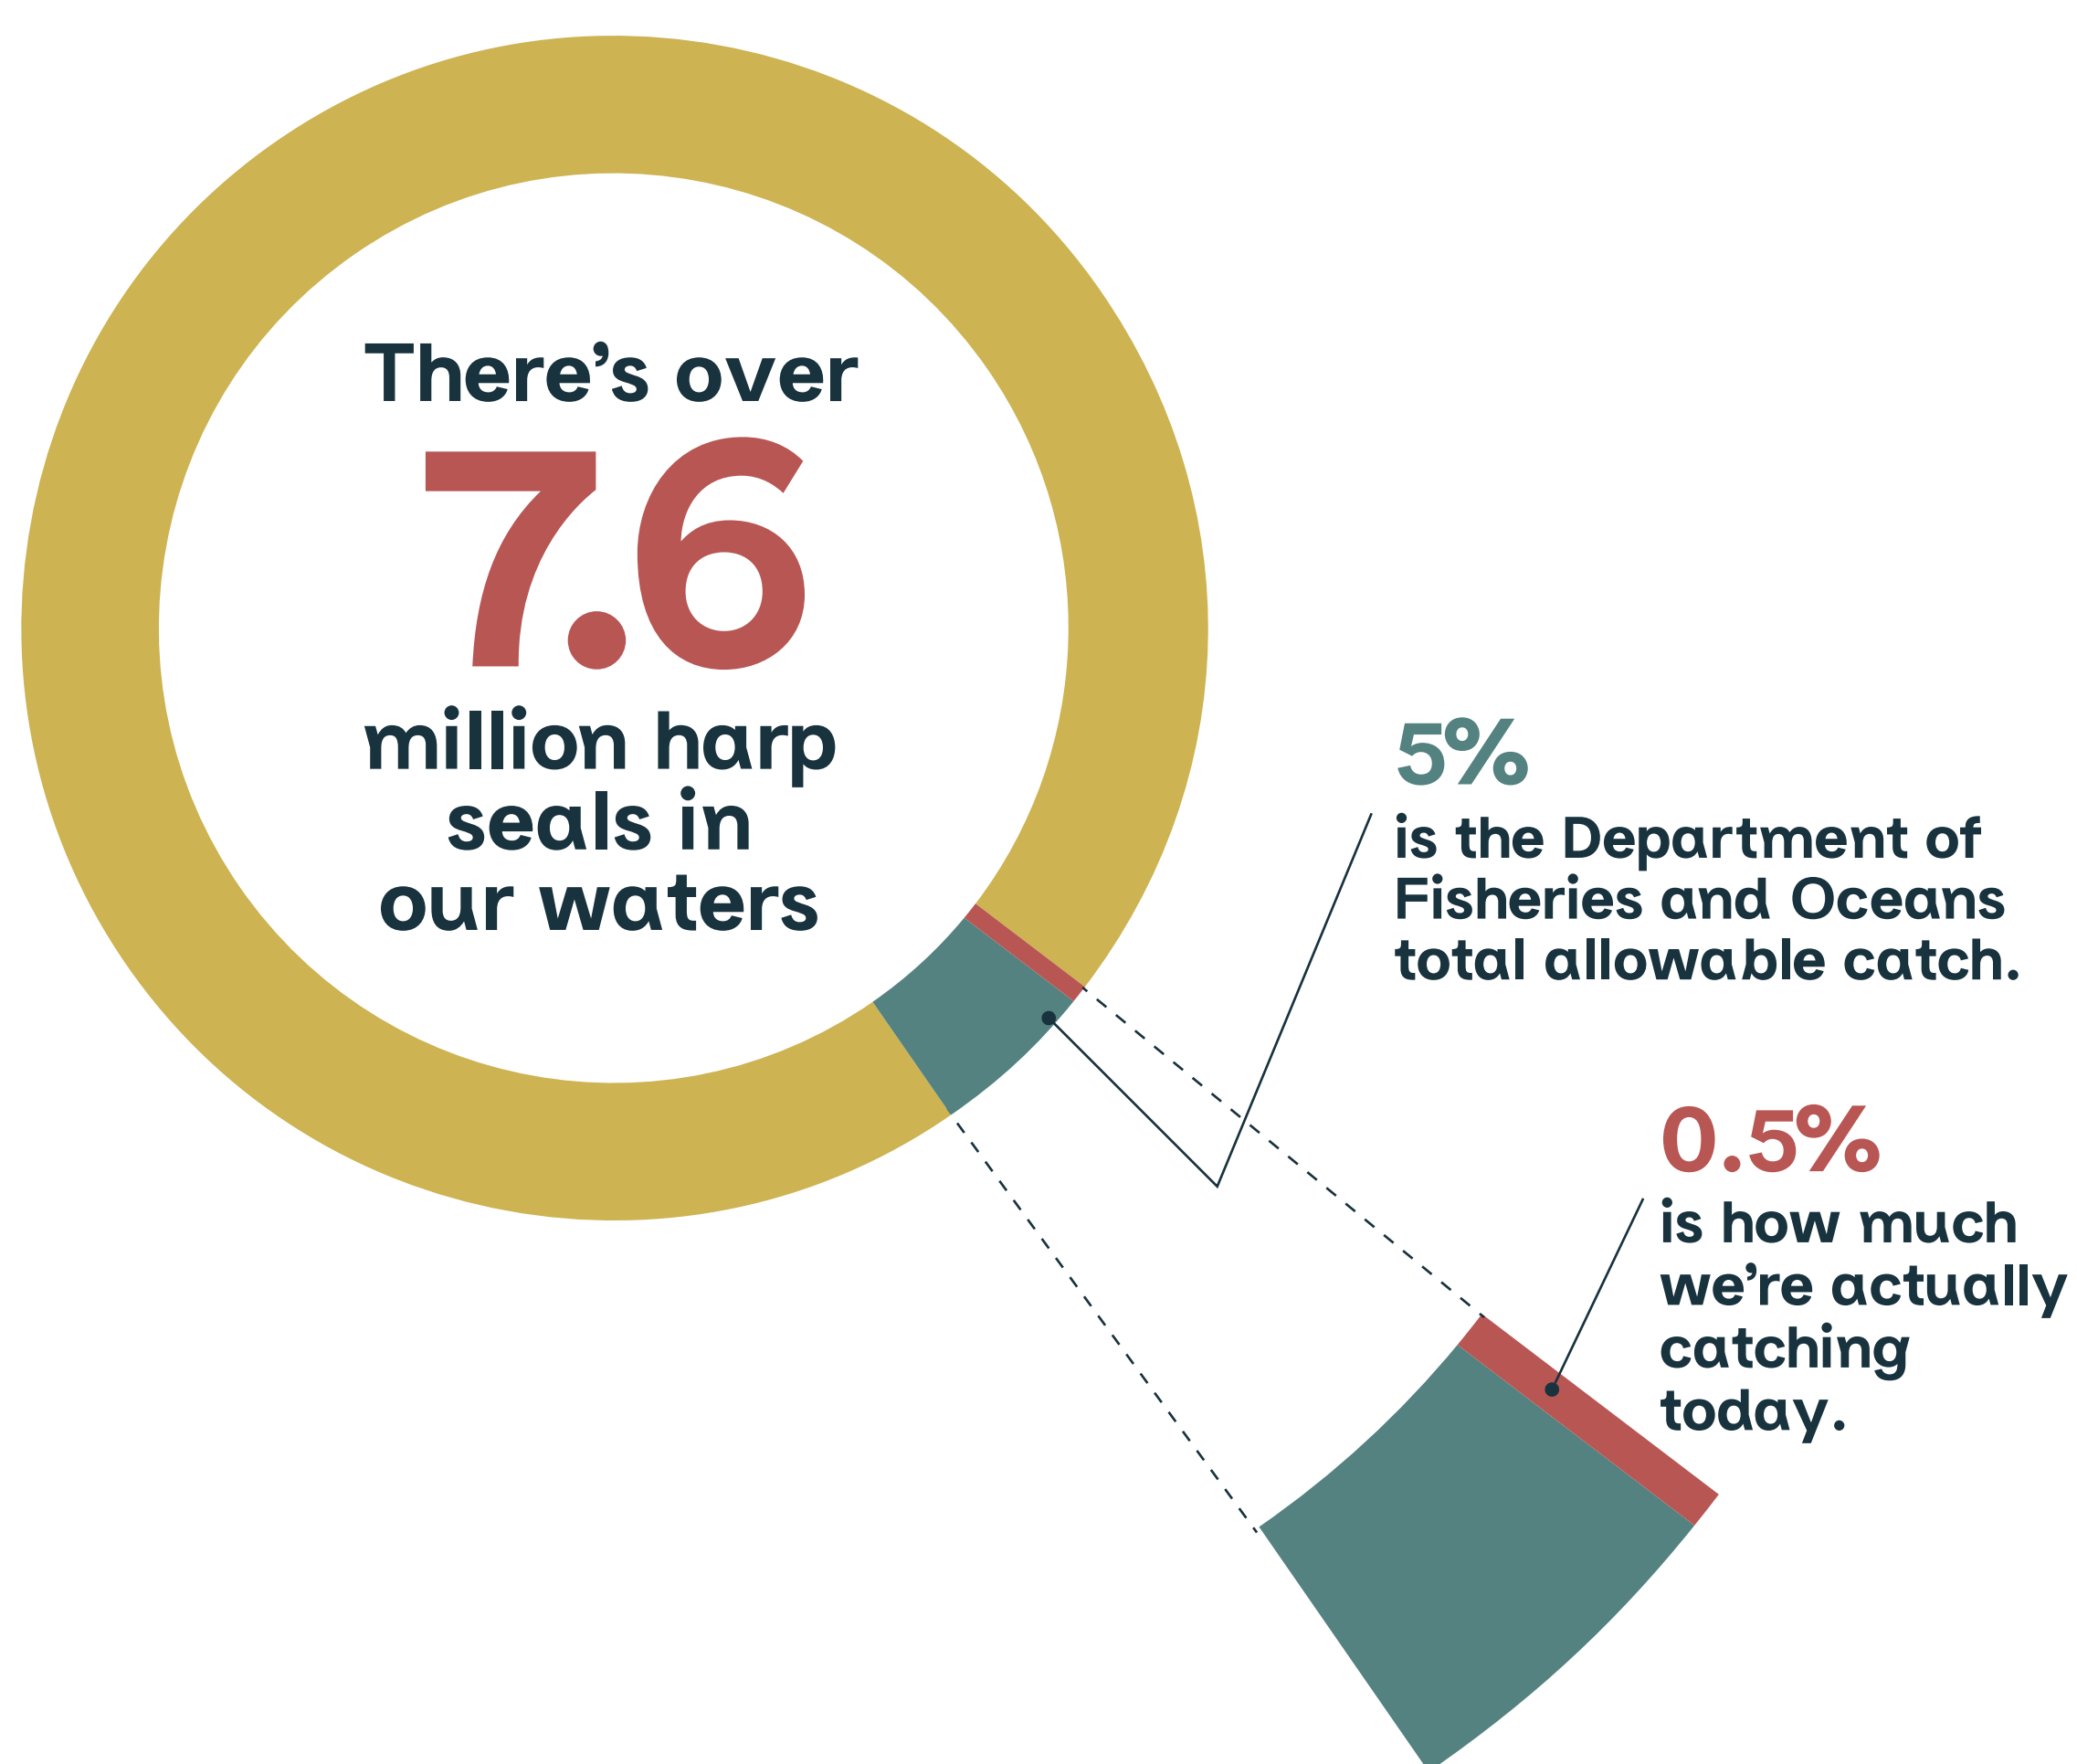

Canadian Seal Products  
Good for you.  
Good for the Environment.

Canada's commercially important fisheries are under pressure. This will have serious repercussions throughout the ecosystem, given the complex food webs that are dependent on these species.

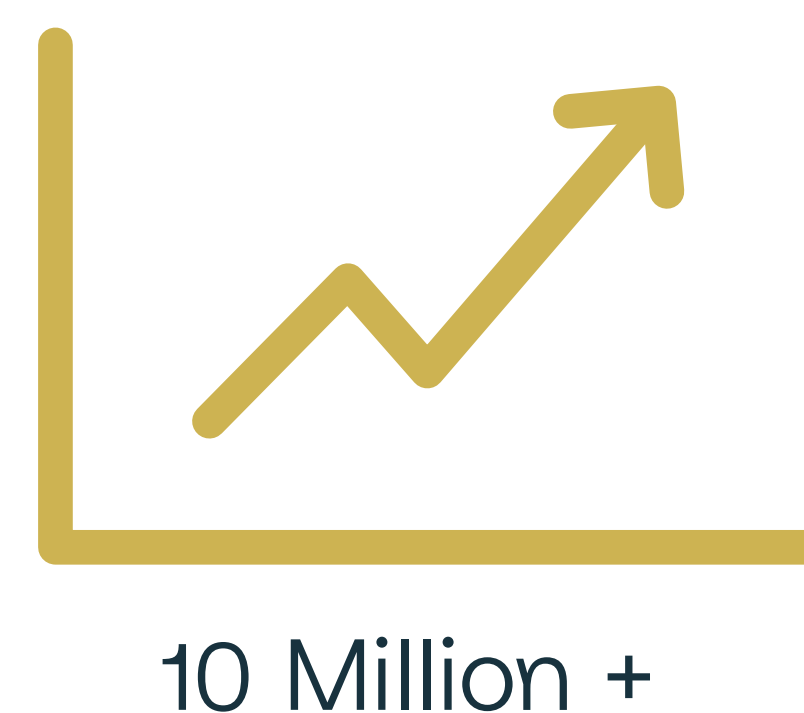

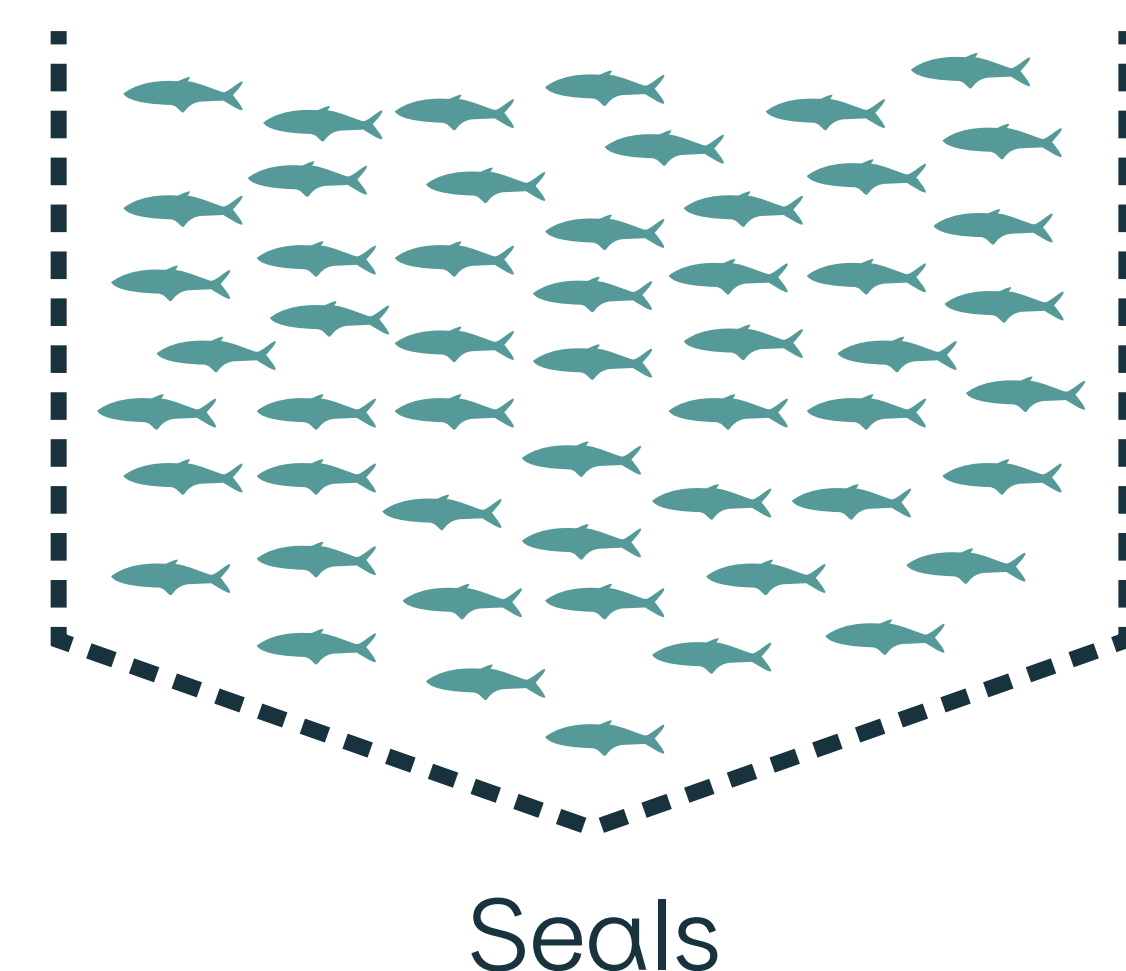

For every fish caught by our fisheries, seals eat **53** times more.

**53** times more.

VS

Meanwhile, seal populations are at the highest we've ever seen.

Sealing is regulated and sustainable. It contributes to marine biodiversity protection and a balanced ocean ecosystem.
