

Canadian Seal Products

Wild Canadian Meat for Pets

Proudly Canadian

Naturally Sourced

Sustainable

Very Nutritious

Good for your pet

Seal meat is higher in protein than many other meats—and a nutrient powerhouse, packed with minerals (iron, zinc, magnesium), vitamins (including B-12), and more. Made from wild-sourced, hypoallergenic, natural meat, your dog will love the flavour!

Good for the environment

Choosing natural products like seal meat helps reduce your carbon footprint. It's sustainable food source that creates less impact on the environment compared to other high intensity farming methods. It's also one of the 41 species certified on the Smarter Seafood list. You can feel good knowing that the food you're eating won't damage other species living in our oceans.

Ideal for

Dogs with specific protein allergies

Training

Weight maintenance

As a meal topper for variety at meal time

The Canadian Superfood

Seal meat is considered a Canadian “Superfood” and is one of the most nutritious meats on the planet!

Excellent source of protein (23%) and low in fat (2%).

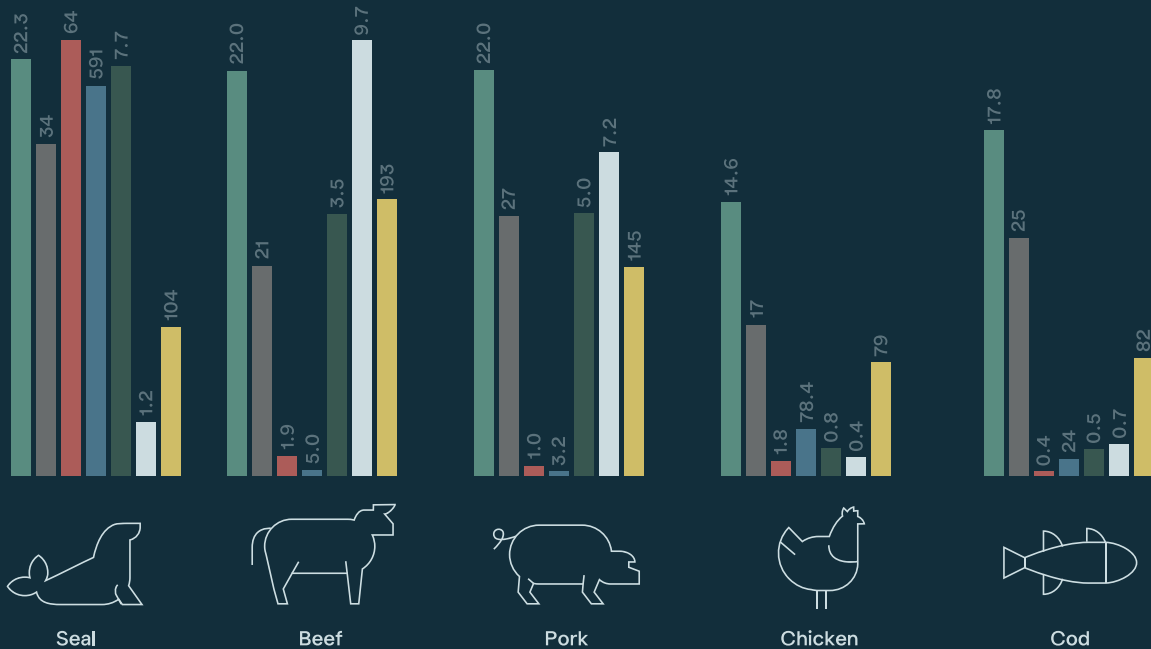

Very nutritious: high in iron, zinc, magnesium and vitamin B12.

All natural, wild game meat with no antibiotics or growth hormones.

● Protein (g) ● Magnesium (mg) ● Iron (mg) ● Calcium (mg) ● Vitamin B12 (ug) ● Fat (g) ● Calories

* For an equivalent portion of 100 grams.

Why is seal meat so dark?

Seal meat is naturally dark due to its high level of myoglobin (an iron-rich protein) which gives the seal its power to dive deep.

Approved and certified

Seal meat processing facilities are certified by the Canadian Food Inspection Agency (CFIA) under the Safe Food for Canadians Regulations (SFCR).

Safe for Your Dog

Seal meat is safe for dogs, even those with allergies and sensitive stomachs.

Looking for an alternative protein for your pet?

Whether it is freeze-dried treats, sticks, hearties, soft training bites, chews or meal (powder), seal meat checks all the boxes. It's an ecologically friendly protein harvested responsibly and sustainably from the cold pristine ocean waters off the Atlantic coasts.

A wild game, sourced and processed in Canada: give your best friend the best!
