

Freeze-Dried Seal Bites

For dogs & cats

Canadian
Seal
Products
Good for your pet.
Good for the environment.

On average 7 calories per treat, those dried treats are made with only 1 ingredient. Dogs love the taste because the treats are freeze dried raw to lock in the aroma, texture and freshness your pet loves. Each treat is packed with all the naturally occurring benefits of this hypoallergenic protein including minerals (iron, zinc), vitamins (B-12) and Omega-3 fatty acids for a happy and healthy life. The freeze-drying process preserves the nutritional integrity of raw fresh meat. Only water is removed, preserving all the characteristics and natural nutrition of wild seal meat. Our products are ideal for dogs with health issues or pets that are overweight, diabetic, have allergies, gastrointestinal disorders, or are on a restricted diet.

Ingredients: Seal meat.
